

**IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF GEORGIA
ATLANTA DIVISION**

MICROSOFT CORPORATION,

Plaintiff,

v.

DOES 1-10,

Defendants.

Case No. 1:25-CV-2695-MHC

PRELIMINARY INJUNCTION ORDER

Before the Court is Plaintiff Microsoft Corporation's ("Microsoft") request for a preliminary injunction. The Court previously issued a Temporary Restraining Order ("TRO") and ordered Defendants to show cause why the TRO should not be converted into a preliminary injunction for the remainder of the case. Dkt. 15. The TRO was extended to June 12, 2025. Dkt. 34. Defendants have not appeared in the case and have not otherwise responded to the order to show cause despite receiving notice of these proceedings.

Accordingly, based on the record, including Microsoft's supplemental brief and the supplemental declaration of Derek Richardson filed June 11, 2025 and the hearing held on June 12, 2025, and for good cause shown, Microsoft's motion for a preliminary injunction is **HEREBY GRANTED**. The Court's TRO (Dkt. 15) is

hereby converted to the instant Preliminary Injunction Order (the “Order”) that shall remain in place pending final disposition of this matter.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

Having reviewed the motions, declarations, exhibits, memorandum, and other papers filed in support of Microsoft’s motion for a preliminary injunction and heard the arguments of counsel, the Court hereby makes the following findings of fact and conclusions of law:

1. This Court has jurisdiction over the subject matter of this case and there is good cause to believe that it has jurisdiction over Defendants because they have purposefully availed themselves of the privilege of doing business in Georgia by infecting, controlling, communicating through, and stealing data from victims and victim computers located throughout the State.

2. Microsoft owns the registered trademarks “Microsoft,” “Windows,” and “Edge” and uses these marks in connection with its services, software, and products.

3. Microsoft also owns copyrights in the code, documentation, specifications, libraries, and other materials that comprise the Windows operating system, including the Declaring Code (the code at issue in this case encompasses a type of code called “declarations” within header files and within libraries contained in the software development kit (“SDK”)). Microsoft owns the registered copyrights

in the Windows 8 SDK, Reg. No. TX-8-888-365 (Copyrighted Work). Microsoft's Copyrighted Work is an original, creative work and copyrightable subject matter under the laws of the United States.

4. There is good cause to believe that Defendants have engaged in and are likely to engage in future acts or practices that violate the Computer Fraud and Abuse Act (18 U.S.C. § 1030); the Copyright Act (17 U.S.C. §§ 101 et seq.); the Lanham Act (15 U.S.C. §§ 1114 et seq.); and the Racketeer Influenced and Corrupt Organizations Act (18 U.S.C. § 1962).

5. There is good cause to believe that, unless Defendants are restrained and enjoined by Order of this Court, immediate and irreparable harm will result from Defendants' ongoing violations of law. This harm will be suffered by Microsoft, victims whose computers are infected with Lumma malware, financial institutions who are victimized by Defendants use of stolen credentials to commit financial crimes, and the public at large.

6. There is good cause to believe that immediate and irreparable damage to this Court's ability to grant effective final relief will result from the sale, transfer, or other disposition or concealment by Defendants of the infrastructure used to distribute, control, and operate the Lumma malware and computers infected with Lumma malware.

7. There is good cause to believe that immediate and irreparable damage to this Court's ability to grant effective final relief will result from the sale, transfer, or other disposition or concealment by Defendants of infrastructure identified in Appendices and from the destruction or concealment of other discoverable evidence of Defendants' misconduct available at those locations if Defendants receive advance notice of this action.

8. There is good cause to believe that to prevent the injury caused by Defendants, each of Defendants' current and prospective domains set forth in Appendix A should be transferred to, or should remain in the control of, Microsoft so that they can be secured and thus made inaccessible to Defendants.

9. There is good cause to direct that third party Internet registries, registrars, data centers, and hosting providers with a presence in the United States to reasonably assist in the implementation of this Order and refrain from frustrating the implementation and purposes of this Order, pursuant to 28 U.S.C. § 1651(a) (the All Writs Act).

10. There is good cause to permit notice of this Order by alternative means, given the exigency of the circumstances and Defendants efforts to obfuscate their physical addresses. The following means of service are authorized by law, satisfy Due Process, satisfy Fed. R. Civ. Pro. 4(f)(3), and are reasonably calculated to notify Defendants of the instant order, the Preliminary Injunction hearing and of this action:

(1) personal delivery upon Defendants who provided to the data centers and Internet hosting providers contact information in the U.S.; (2) personal delivery through the Hague Convention on Service Abroad or other treaties upon Defendants who provided contact information outside the United States; (3) transmission by e-mail, electronic messaging addresses, facsimile, and mail to the known email and messaging addresses of Defendants and to their contact information provided by Defendants to the domain registrars, registries, data centers, Internet hosting providers, and website providers who host the software code or infrastructure associated with the domains identified in Appendix A or through which domains are registered; or (4) publishing notice to the Defendants on a publicly available Internet website.

11. There is good cause to believe that the harm to Microsoft of denying the relief requested outweighs any harm to any legitimate interests of Defendants and that there is no undue burden to any third party.

PRELIMINARY INJUNCTION

NOW THEREFORE, IT IS HEREBY ORDERED that Defendants, their representatives and persons who are in active concert or participation with them, are preliminarily enjoined under Rule 65 from:

1. Reproducing, distributing, creating derivative works of, or using unauthorized versions of Microsoft's software;

2. Using without authorization the “Microsoft,” “Windows,” and “Edge” trademarks;

3. Deploying, installing, executing, or copying malware, computer contaminants, malicious code, or unauthorized software on third party computers;

4. Using infected victims’ computers to send commands and instructions to the infected computing device to control it surreptitiously and deliver malware that enables Defendants to take control of the victim’s computer or to use such computers to receive, transmit, or send commands from Lumma malware and associated infrastructure and services;

5. Distributing, operating, or using Lumma Malware for purposes of obtaining third party data without authorization

IT IS FURTHER ORDERED, pursuant to the All Writs Act, with respect to any of the infrastructure set forth in Appendix A to this Order, the owners and/or operator of such infrastructure with a presence in the United States shall take reasonable best efforts to implement the following actions:

6. Take reasonable steps to identify incoming and/or outgoing Internet traffic on their respective networks associated with Defendants that originates and/or is being sent from and/or to the domains identified in Appendix A;

7. Take reasonable steps to block incoming and/or outgoing Internet traffic on their respective networks associated with Defendants that originate and/or

are being sent from and/or to the domains identified in Appendix A, by Defendants or Defendants' representatives or resellers, except as explicitly provided for in this Order;

8. Completely disable the computers, servers, electronic data storage devices, software, data or media assigned to or otherwise associated with Defendants' use of the domains set forth in Appendix A and make them inaccessible from any other computer on the Internet, any internal network, or in any other manner, to Defendants, Defendants' representatives and all other persons, except as otherwise ordered herein;

9. Completely, and until further order of this Court, suspend all services to Defendants or Defendants' representatives or resellers associated with the domains set forth in Appendix A;

10. Isolate and disable any content and software associated with the Defendants hosted at the IP Addresses listed in Appendix A in a manner that does not impact any content or software not associated with Defendants hosted at the IP Addresses listed in Appendix A.

11. Not enable, and shall take all reasonable steps to prevent, any circumvention of this Order by Defendants or Defendants' representatives associated with the domains including without limited to enabling, facilitating,

and/or allowing Defendants or Defendants' representatives or resellers to rent, lease, purchase, or otherwise obtain domains associated with implicated services;

12. Preserve, retain and produce to Microsoft all documents and information sufficient to identify and contact Defendants and Defendants' representatives operating or controlling the domains set forth in Appendix A, including any and all individual or entity names, mailing addresses, e-mail addresses, facsimile numbers and telephone numbers or similar contact information, including but not limited to such contact information reflected in billing, usage, access and contact records and all records, documents and logs associated with Defendants' or Defendants' Representatives' use of or access to the IP Addresses;

13. Provide reasonable assistance in implementing the terms of this Order and take no action to frustrate the implementation of this Order; and

14. Completely preserve any computers, servers, electronic data storage devices, software, data or media assigned to or otherwise associated with the domains set forth in Appendix A, and preserve all evidence of any kind related to the content, data, software or accounts associated with such domains and such computer hardware, such that such evidence of Defendants' unlawful activities is preserved.

15. In determining the method and mechanism to disable content and software associated with the Defendants, the relevant data centers and/or hosting providers shall reasonably confer with Microsoft's counsel of record in this action.

IT IS FURTHER ORDERED that, pursuant to the All Writs Act, with respect to any currently registered Internet domain set forth in Appendix A, the domain registries or with a presence in the United States shall take or cause to be taken the following actions:

16. Within three (3) business days of receipt of this Order, or as soon as practicable, shall unlock and change the registrar of record for the domain to MarkMonitor or such other registrar specified by Microsoft. To the extent the registrar of record does not assist in changing the registrar of record for the domain under its control, the domain registry for the domain, or its administrators, including backend registry operators or administrators, within five (5) business days of receipt of this Order, or as soon as reasonably practicable, shall change, or assist in changing, the registrar of record for the domain to MarkMonitor or such other registrar specified by Microsoft. The purpose of this paragraph is to ensure that Microsoft has control over the hosting and administration of the domain in its registrar account at MarkMonitor or such other registrar specified by Microsoft. Microsoft shall provide to the domain registry or registrar of record any requested registrar information or account details necessary to effectuate the foregoing.

17. The domains shall be made active and shall resolve in the manner set forth in this order, or as otherwise specified by Microsoft, upon taking control of the domains;

18. The domain registries shall take reasonable steps to work with Microsoft to ensure the transfer of the domains and to ensure that Defendants cannot use it to make unauthorized access to computers, infect computers, compromise computers and computer networks, monitor the owners and users of computers and computer networks, steal information from them or engage in any other activities prohibited by this Order;

19. The WHOIS registrant, administrative, billing and technical contact and identifying information should provide such information as may be specified by Microsoft:

20. Prevent transfer, modification or deletion of the domains by Defendants and prevent transfer or control of the domain to the account of any party other than Microsoft;

21. Take all steps required to propagate to the foregoing changes through the Domain Name System (“DNS”), including domain registrars.

IT IS FURTHER ORDERED that copies of this Order, notice of the Preliminary Injunction hearing and service of the Complaint may be served by any means authorized by law, including any one or combination of (1) personal delivery

upon Defendants who provided accurate contact information in the U.S., if any; (2) personal delivery through the Hague Convention on Service Abroad or similar treaties upon defendants who provided accurate contact information in foreign countries that are signatory to such treaties, if any, (3) transmission by email, facsimile, mail and/or personal delivery to the contact information provided by Defendants to their ISPs and as agreed to by Defendants in their agreements with ISPs, (4) publishing notice on a publicly available Internet website and/or in newspapers in the communities.

IT IS FURTHER ORDERED that, with respect to any registrars, registries, or infrastructure providers associated with the domains listed in Appendix A that do not have a presence in the U.S. or are not otherwise subject to the Court's jurisdiction, receipt of this Order shall constitute notice that their infrastructure and/or services are being used by Defendants, and voluntary compliance with the provisions of this Order is requested.

IT IS SO ORDERED this 12th day of June, 2025.

Hon. Mark H. Cohen
U.S. District Court Judge
